Dear Mr. Brown:

Re: Permit Transfer, Replacement Reclamation Contract & Reclamation Surety,
Knolls Solar Ponds, M/045/022, Tooele County, Utah

Enclosed is the information I promised I would forward to you based upon our telephone conversation this morning. It is our understanding that Amax Magnesium Corporation has been recently acquired by Renmag Corporation. Renmag is owned by Renco Group Incorporated. Because of this recent change in ownership a new reclamation contract and reclamation surety (bond) must be provided to the Division to replace the existing contract and bond held under Amax Magnesium's name.

I have also enclosed a permit transfer form (MR-TRL) which should be completed to effect the recent transfer of permitting and reclamation liability to the new owner (Renmag or Renco). I assume that you will want to utilize the same form of reclamation surety (bond) as posted originally by Amax Magnesium Corporation. If this is not the case, please notify me so I can be sure you have the appropriate substitute form(s).

Please contact me if I can provide any assistance in filling out these forms. Thank you for your attention to this matter.

Sincerely,

D. Wayne Hedberg
Permit Supervisor/Reclamation
Hydrologist
